information and
registration”

Please join us on Tuesday November 30th from 9:00am – 3:00pm. Our focus will be on LAARS commercial equipment and our exclusive LAARS^LLINC control. Topics include proper piping and installation requirements, programming, sequence of operation, common troubleshooting, and common mistakes we see in the field and how best to avoid them up-front. The goal is to save you and your customers time and aggravation. Knowing what to avoid before the fact makes for satisfied and repeat customers for us all.

- Technical hands-on class designated for contractors & engineers
- If unvaccinated, we appreciate your wearing a mask
- Limit of 20 people
- Lunch/Refreshments will be served
- Steve Moruzzi – LAARS National Training Manager is presenting
