Please join us on Wednesday March 26th from 9:00am – 12:00pm. Our focus will be on gas & electric tankless water heaters. The class will cover proper sizing, equipment selection, sequence of operation, and applications. Class knowledge will help you educate your customers and give you a better feel of the array of product choices, critical requirements for the proper operation of the equipment and the knowledge required to select the right equipment for each job.
